

OCTOBER 2006

WASHINGTONIAN

have a **GREAT SMILE**

Best Dentists

We polled area dentists and asked: Who would you trust with your own family's teeth?

Here are their choices for Washington's top general dentists, periodontists, orthodontists, and more.

We mailed surveys to 2,400 dentists in DC, Maryland, and Virginia and asked them to name the general dentists and specialists to whom they would send a member of their own family.

The dentists who received the most recommendations from their peers are listed here. Those marked with an asterisk (*) are the top vote getters in each specialty.

The latest on bleaching, veneers, braces, and other ways to get beautiful teeth. Plus a guide to the area's best dentists.
